## WELD INDUSTRIES

**CARBON STEEL  
BLADE BUTT  
WELDER MACHINE**

**BI - METAL  
BLADE BUTT  
WELDER MACHINE**

*The Band saw Butt Welding Machine has been manufactured to make sure that the welding operations can be carried out in a dependable and streamlined manner. It is fitted with band saw blades, whose ends are connected through overlapping brazing, which needs tremendous brazing skills. However, it delivers weak joined due to the introduction of foreign material. Moreover, solder and flux are required.*

*Electric resistance butt welding is the latest way through which the joint's strength increases by 25% compared to that of the base metal. Also, its swift and automatic operations make sure that human errors do not affect the strength of the joint,*

**We Also Manufacture : Arc Welders, Spot Welders, Butt Welders, Argon Arc Welders, Seam Welders, Pneumatic, Pedal Operated, Table Mounted, Portable and Resistance Heating Equipments.**
